OUR VISION

Our utmost goal is to be at the forefront of the Oil and Gas Industry, catering to Engineering, Procurement and Construction needs. Also, to be a respected indigenous company of the future, relentlessly pursuing targeted investments, maximizing the value of our assets and resources for our employees, shareholders and stakeholders, and continue working in a responsible, caring and productive manner.

OUR MISSION

To support the Oil and Gas industry in Nigeria with emphasis on exceeding our clients' expectations, and meeting deadlines whilst ensuring the highest standard of quality, Health, Safety & Environment, through a wide range of products and services.

Our Services

From conceptual design to Front-End Engineering Design and to lead-time procurement supply services, we proffer solutions via a team of professionals that meet the needs of clients, ensuring safety and feasibility. **Our services covers :**

-  Engineering Designs
-  Project Management
-  Offshore & Onshore Oil & Gas Production & Export
-  Facilities Construction & Maintenance/Inspection
-  Civil Construction & Maintenance Works
-  Electrical & Instrumentation
-  Materials Procurement & Logistics
-  Manpower Supply
-  Off Site/Workshop Fabrication...

Our Engineering Services

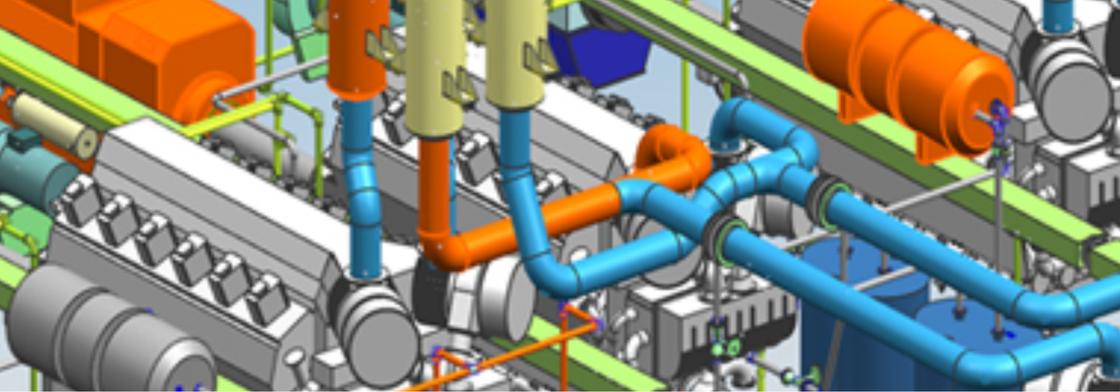

To support the Oil and Gas industry in Nigeria with emphasis on exceeding our clients' expectations, and meeting deadlines whilst ensuring the highest standard of quality, Health, Safety & Environment, through a wide range of products and services. We are always available to go the extra length in delivering cost-effective services to clients. Our aim is to be a thorough guide through the diverse challenges in the Engineering field, while providing top notch services in the Construction department in the Oil and Gas industry. We have established a reputation for delivering quality Engineering Consultancy services to the oil and gas industry and beyond.

Listed below are our engineering design services;

CONCEPTUAL DESIGN:

- Process Design Philosophy
- Process Calculation,
- Early Process Simulations

- E&I Design Philosophies,
- Mechanical & Layout Design,

Front-End Engineering & Detailed Design:

- Process Simulation
- Equipment & Line Sizing
- PFDs & P&IDs
- Heat & Material Balance
- Process & Mechanical Equipment Specifications & Data Sheets
- Piping Design Specifications and Arrangement Drawings
- E&I Specifications & Guide Drawings
- Civil Specifications & Guide Drawings
- Owner's Engineer Services

Our Project Management Services

Communicating with client and stakeholders is ever pivotal to progress, and this we do seamlessly. Yet, our success story of executing projects safely, on-time, within budget and with high quality deliverables has been possible through our world class Project Management Team – providing best-in-class Project Management/consultancy and Construction services to clients – supporting them to achieve their business targets for cost, schedule and quality, and as well as safety and environmental requirements.

Our oil & Gas Procurement Includes but not limited to:

- Drilling Equipment
- Valve (Pressure Safety Valves, Pressure Control Valves, Blowdown Valves and Manual Valves) and Accessories
- Pipe/Tubes/Hoses and Fittings
- Compressors/Expanders/Blowers and Accessories
- Pumps and Accessories
- NDT Instruments
- Safety Equipment/PPEs
- Gauges and Meters
- Pipeline Accessories
- Compressors
- Instrument Cables
- Power and Control Cables
- HVAC Equipment and Supplies
- Subsea Pipe & Fittings
- Non-Corrosive Fittings

- Stainless Steel Fittings
- Stainless Steel Pipe
- Hazardous Equipment and Materials
- Instrumentation & Process Control Components
- Oil Spill Control Equipment and Accessories
- Wellhead Control Panels
- Well Monitoring Systems
- Progressing Cavity Pumps (PCP) Separators
- Environmental Equipment/Products
- And other consumables for Fabrication Operations.

Our ties with Original Equipment Manufacturers as well as buying houses around the world, have built us a reputation as a Major Supplier of Oil Field Equipment and Materials.

Our Company Policy

At **WESTROM SYNERGY LIMITED**, we believe a good company policy is an integral part of efficient and profitable business management. Therefore we have a formal and well structured company policy, outlining our organization's commitment/plan to protect people (employees, customers, public) from harm in the workplace, detailing our general approach and specific roles/responsibilities (both for staff and management staff), and procedures (risk assessment, training, emergency plans) to manage hazards and promote a safe environment, essential for preventing accidents and fostering a positive safety culture.

The key Features of our Company Policy are:

- **HEALTH SAFETY & ENVIRONMENT (HSE) POLICY**

Because we believe a good HSE policy is an integral part of efficient and profitable business management, we ensure the health, safety and security of our employees, clients and the environment in which we operate in; noting that the environment is fundamental for our company's existence. We recognize the

importance of health and safety of persons and properties involved directly or indirectly in our operations. Thus, we embrace our responsibilities throughout our business activities and seek to adopt the highest environmental standards. These standards comprise all the products, materials and services we supply to customers, working conditions for employees and relationship with the communities in which we operate.

- **QUALITY ASSURANCE + QUALITY CONTROL (QA + QC) POLICY**

This policy outlines our organization's commitment to delivering high-quality products/services by integrating proactive process management (QA) to prevent defects and reactive product testing (QC) to identify and correct them, ensuring customer satisfaction, regulatory compliance, and continuous improvement through systematic procedures, training, and audits for all personnel and operations.

Key Components of Our QA/QC Policy are:

Quality Assurance (QA) (Process-Oriented):

- **Objective:** Prevent defects by designing quality into processes
- **Activities:** Defining standard operating procedures (SOPs), documentation,

- training, process design, and continuous improvement programs
- **Focus:** Proactive, systematic approach.

Quality Control (QC) (Product-Oriented):

- **Objective:** Identify defects in finished products or services
- **Activities:** Inspection, testing, data verification, and corrective actions
- **Focus:** Reactive, identifying issues after they occur.

Management Commitment:

Leadership's dedication to quality standards, compliance, and resource allocation for quality initiatives.

Employee Responsibility:

Ensuring all staff understand and adhere to quality procedures, fostering a culture of quality ownership.

Procedures & Documentation:

Detailed plans for specific activities, including data checks, peer reviews, audits, and archiving.

Continuous Improvement:

Using feedback from QC findings (like non-conformances) to trigger QA reviews (Corrective & Preventive Actions - CAPA) to update processes and prevent recurrence.

• **COMMUNITY RELATIONS POLICY**

It is our policy, at Westrom Synergy Limited, to establish good relationship with the communities where we operate. Our Community Relations Policy is a formal commitment by our organization to build and maintain positive, mutually beneficial relationships with the local communities where we operate, focusing on transparent dialogue, respecting local needs, ensuring fair practices, and contributing to socio-economic development through engagement, investment, and local hiring.

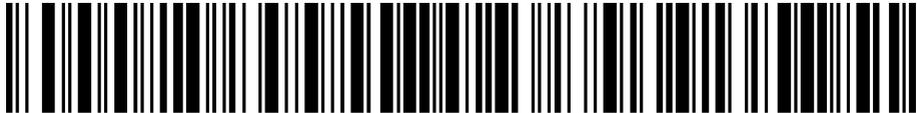

Key elements of our Community Relations Policy include open communication, community participation, managing social impacts, promoting local economic growth, and resolving conflicts constructively.

By our Community Relations Policy, we focus on the prevention of all types of

conflict by identifying them ahead of time, also, taking cognizance of all potential conflict factors in the host communities and fashion a lasting solution without reservation. The approach employed in achieving this include, consultation, enhance participation, homage and contingent programs.
